(54) Title: TUBE WITH MULTILAYER HEAD AND METHOD FOR MAKING SAME

(54) Titre: TUBE A TETE EN MATERIAUX MULTICOUCHES ET PROCEDE DE FABRICATION

C ũ

The invention concerns a plastic tube head (2), designed to be assembled with a skirt (3) to form a tube (1), comprising a neck (20), and a shoulder (21), characterised in that: a) said head (2) includes a multilayer material comprising an inner layer (24), and an outer layer (23) made of structural material A, characteristically a polyolefin, and an inner layer (25) made of a thermoplastic barrier material; b) said inner layer (25) is coated by said inner (24) and outer (23) layers, up to and including the ends (250, 251) of said head where said inner and outer layers are assembled into one material A layer, the distance "e" and "e" between each of the ends of said inner layer and the corresponding end of said head ranging between 0.02 and 5 mm.
